Article No.: ABYB 1140	Lot No./ Charge: (see product label)	Quantity: 1 mg / 1 mg/ml
Product name: IgY - Anti-Gardnerella vaginalis antibody		
Gardnerella Vaginalis is an infection of the female genital tract by bacteria of the Gardnerella vaginalis strain, often in combination with various anaerobic bacteria. Also called bacterial vaginosis. Common symptoms include increased vaginal discharge that often smells like fish. Having BV approximately doubles the risk of infection by a number of other sexually transmitted infections including HIV/AIDS. It also increases the risk of early delivery among pregnant women.		
Immunogen	<i>Gardnerella vaginalis</i>	
Host	chicken	
Isotype	immunoglobulin Y (IgY) – egg yolk	
Purification	ammonium sulphate precipitation	
Format	powder/ liquid	
Buffer	no/ PBS with 0.1 % sodium azide	
Storage	shipped at 4°C, store at -20°C	
Applications	<i>in vitro</i> diagnostics: ELISA, Agglutination-Test, Dot, Rapid-Test and other applications	
Proteine concentration	estimated by Bradford method	
Molecular weight estimation	SDS-PAGE (BioRad)	

Application (only for *in vitro* diagnostics): This product is for Research and Development use only. It must not be used as a remedy and not as an *in vivo* application. Foam or bubble development should be avoided. Any unused stock solution must then be divided into aliquots and frozen at -20°C. Repeated freezing and thawing is not recommended. For optimal immunoassay application we recommend to perform a chessboard titration (CBT) to avoid false-positive results.
